

Gate 6 Road Intersection Improvements – Request for Qualifications-Professional Services

The intersection of Gate 6 Road/Bridgeway/Bridge Ave./Highway 101 is the primary transportation gateway into the City of Sausalito. The intersection includes a fifth leg which is the Sausalito/Mill Valley Path, an important route for pedestrians and bicyclists. Travel through the intersection is especially challenging for pedestrians and bicyclists. Entry onto Hwy 101 in the evening commute hour is also problematic. The City seeks professional services to solve these problems.

A detailed Request for Qualifications is available at the City Website:

<http://www.ci.sausalito.ca.us/Index.aspx?page=706>

This work is considered preliminary engineering. The objective of the project is to obtain construction plans, specifications and estimate; as well as environmental studies and reports to enable environmental certification evidencing compliance with CEQA and NEPA. The City also desires necessary construction permits from Caltrans and Marin County.

The project budget for this effort is \$95,000. The project is federally funded and has DBE goal of 8.6%.

A pre-submittal meeting will be held on January 3rd, 2013 at 10:00AM.

Statement of Qualification Proposals are due January 18, 2012
