Re: 2200 Bridgeway

To: Justin

Regarding a request for a Minor Use permit to allow events at 2200 Bridgeway, I am writing to register my concerns about street parking as well as noise during these events.

I live at 512 Olive Street, a small street where the residents deal with parking on a daily basis. A year ago we submitted a petition for residential street parking signs to be installed. To date, nothing has materialized. I am confident in speaking for my neighbors on Olive Street that the possibility of additional cars on our street is a significant issue, and supporting events that may add to this problem is not possible.

Additionally, though the notice for this particular use permit does not address the issue of noise, nor any description of proposed events actually, any late night noise would be, of course, a serious consideration.
