

By executing this At-Risk Plan Check Acknowledgement, I formally acknowledge and accept the risks associated with the initiation of an early plan check review by the City of Sausalito for my proposed construction project located at \_\_\_\_\_ Sausalito, CA

(Job Site Address)

By executing this At-Risk Plan Check Acknowledgment, I formally acknowledge and accept that I may potentially incur both extra cost and effort associated as a result of requesting commencement of the plan check review process prior to securing approval for the requisite Planning entitlement for my project. I formally acknowledge and accept the possibility that the action ultimately taken on the Planning entitlement may result in the need for the project construction drawings to be modified and the need for duplicative plan check review efforts. Plan check review fees paid upfront are nonrefundable and will not be credited toward additional plan review efforts.
