

MEMORANDUM

DATE: May 5, 2011
TO: Trees and Views Committee
FROM: Alison Thornberry, Assistant Planner
SUBJECT: Suggestions for FY 2011-12 Prioritized Project List

Background

In past three years the City Council has approved "Prioritized Project Lists" which prioritized staff work on over 40 projects during the respective FY 2008-09, FY 2009-10, and FY 2010-11 timeframes. The Prioritized Project List approved by the Council in May 2010 is provided as **Exhibit**.

As part of the upcoming budget discussions, City staff is seeking suggestions from commissions, City volunteers, and the public on projects which should be placed on the Prioritized Project List for funding in the FY 2011-12 budget.

In order to qualify as a Prioritized Project List, the project must:

- Require at least 40 hours of staff time;
- Be one time in nature;
- Not reflect routine provisions of City services;
- Be a mandate imposed by state or federal government, or other funding agencies; or
- Be a major capital improvement.

At the April 7, 2011 Trees and Views Committee meeting, Staff requested the submittal of written suggestions by the Trees and Views Committee. No suggestions were received.

Request

Staff requests the Trees and Views Committee to identify and prioritize any projects.

The City Council will consider the Trees and Views Committee's recommendations in setting staff priorities and preparing the FY 2011-12 budget.
